## Image Best Practices

To ensure the best possible user experience, Outbrain requires high resolution images and engaging titles to spark action from audiences.

Avoid using images with text in them. Do not use images that are unrelated to the headline and/or landing page.

Portraits work better than people in action. Always use a high-resolution image.

Lifestyle images tend to perform better than cartoons or stock images. Avoid logos or promotional messaging.

If promoting a product, try including it in the image – something displayed in an attractive way engages consumers to click. Try using close-up images rather than wider shots.

### • Align on 3 suggested Ad groups to move forward with:

- Repurpose existing blogs and create new pages
  - Remove remove blog links and everything on the right-hand side), leaving just the text and regular nav. Bar in place.
  - Remove the outbound links and add “sources” to the bottom of the article instead
  - Insert more product links through the article
  - Add in in a plug to the “why us” into the conclusion
    - Here at Tanasi, we’ve made it our mission to create the highest quality, scientifically-validated hemp extract products that support people’s overall wellness.
    - Not all CBD is the Same

- **Google Ads**
  - Consider audience refinement on display ads
  - Enable targeting expansion to reach new users
  - Connect GA and Google Ads with “goals” to measure conversions
  - Optimize keywords, by adding “searched phrases” and negative keywords

### A Note On Restrictions

- **Facebook**
  - Today, the only CBD ads Facebook will approve are ads for CBD topicals, a policy change that was MADE IN 2019 (previously, topicals were banned too).
  - ***See also: IVYSIDE CBD ADVERTISING CASE STUDY***
- **Google Ads**
  - Again, though hemp-derived CBD is legal and does not fit the definitions above, Google rejects all text search ads that refer to CBD.
  - What Google does allow are ads for hemp-derived CBD products that rely exclusively on hemp keywords.

### A Note On Restrictions

- Outside of the [Google Display Network](#), there is a range of platforms available to advertisers looking to access display inventory on websites that will allow CBD-related ads to run on their sites. One platform clearly capitalizing on the current restrictions placed on CBD ads is *FieldTest*.

# Website Analytics - conversions

## Goals

# Website Analytics

---

- **Traffic Sources**

- Organic traffic represents a high overall percentage, bringing 75% of total traffic, but it performs poorly
- Email and social traffic represent a very low percentage overall at only 6% combined, they need to be a bigger driver in the mix

- **Pageviews**

- 'Blog' traffic has a high bounce rate, need to incorporate more CTAs
- "Our Story" and "Science" represent a tiny portion of visitors at only .5% combined, consider incorporating this info throughout other pages or have more CTAs to these sections with internal links

# Website Analytics

---

- **Conversions**

- Ecommerce conversion rate is 1.57%, we would like to see that above 2%
  - Need to improve the social trust/authority to improve conversion rates
  - Need to optimize UI/UX within site to improve user flow
- Add exit modals and pop-ups that reinforce the “science”
  - capture emails
  - serve special offers
  - encourage people to engage with content, such as blogs

- Need to add “replenishment” and more upsell opportunities
- We need to do some A/B testing with “Flows” ... they need to be contributing more \$/recipient
- Enable Upsell/Cross sell flows

- **Content**

- Update and optimize graphics to match the email “theme” or purpose
  - For example, the “Order Shipped” and “Order is Confirmed” email I received has a large header with a misc. Collection of products
  - Leverage blog content for email mktg to balance promo offers
  - Add more educational, “why us” content into the sequences
  - Introduce fun, interactive content with surveys or quizzes

- **Metrics**

- Campaign “Open Rate” of 16%, would like to see that over 20% minimum
- Campaign “Click Rate” is only .98%, would like to see 2x increase

- **Segmentation**

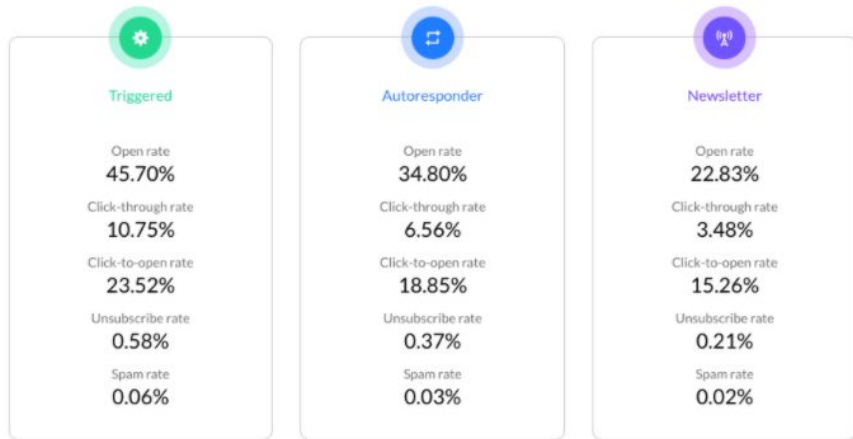

- Add a couple additional questions into the email signup so we can personalize content
- Build customer loyalty with personalized “thank you” flows
- Customize distribution lists, depending on email content
- Way too many lists overall, need to simplify and customize by behavior

# Website Recommendations

---

- **Homepage Layout**

- Shorten page, removing individual product listings and focus on navigating people by “need” and “ways to enjoy”
- Add additional headers to offer different messaging angles

- **Product Page**

- Add “people also bought” or “recommended items”
- Reorganize “suggested use” and make it “live text” instead of an image

- **ECommerce**

- Add “subscribe and save” option for recurring orders
- Email tips/best practices post purchase

# Website Recommendations

---

- **Product Category Pages**

- Highlight the “Tanasi difference”, USPs of our formula, Benefits Icons, “your timing is perfect” info from the bottom of the homepage

- **Shop Nav**

- Allow users to navigate by “need”, e.g. Calm, Relief, Rest
- Add filtering by price, size, type
- How are we organize by “mg” (potency) and size?

# Website Recommendations

---

- **Our Story**

- Add pictures of scientists, university where formulation and testing takes place, bios of key executives
- Elevate the personal side of the story, why the company was created, not just what it is “committed to”

- **Science**

- Reorder page to bring the “what’s special about our CBD” up higher as more of the focus of the page

# Website Recommendations

---

- **Blog**
  - Add product CTAs within blogs
  - Replace the “instagram” and “twitter” modules on the right panel and add “featured products” and add “featured products” at the end, replacing the “new customer offer”
  - Potentially limit the number of outbound links to other sites
  - Add “email” sign up

# Website Audit

## Offers, Sign-ups, Pop-ups

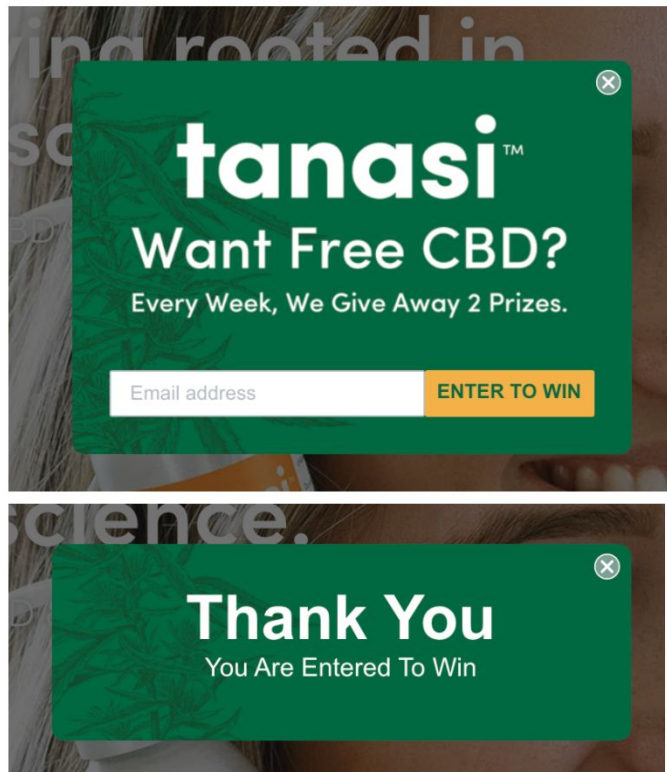

# FREE CBD Giveaway

## pop-up

- **When:** after 15 seconds of viewing the site
- **Where:** HP or URL containing /blog/
- **What's next:** Free CBD X2 is our most successful form fill (2.48k submissions this year.) We suggest allowing former submitters to re-enter the giveaway. This offers users a reason to come back to the site. Add a note of re-eligibility on the thank you message, "you'll be eligible to enter again in 7 days", "enter again next week"

### Quick notes:

- The goal here is to gather emails **and** incentivise customers to keep coming back.
- We should include a monthly social post with a CTA to visit the site and enter to win.

# BLOG POP UP - FREE CBD

- **When:** after 15% scrolling on blog
- **Where:** URL containing /blog/
- **What's next:** The blog page, as well as the blog posts, display the customer special on the top right of the page - the fact that this pops up once having already seen the same imagery and verbiage does not make it any more enticing than when it's on the side of the site. Additionally, the imagery on the popup seems clinical - users are trained to dismiss this sort of ask for fear of a scam. Replacing the product images with lifestyle images could result in better engagement. [See example.](#)

# 50% off NEW CUSTOMER OFFER

- **When:** static offer
- **Where:** bottom of a blog post
- **What's next:** Other than updating the product images it think this offer looks great and placement makes sense. Since product pages don't have offers on them i would also have the offer pop up after scrolling through the products - 10 seconds in.

50% off entire order  
new customer special

# EMAIL LIST SIGN UP

---

- **When:** static banner
- **Where:** bottom of HP
- **What's next:** On the HP this is the only way to opt in to the email list and it's on the very bottom of the page. There is also no straightforward way of knowing what you're signing up for. I think having the open field copy say *join our email list or enter email to subscribe* might add some clarity. I'd even suggest having a background image, to this alluding to an email opt-in/ savings. Copy/content should be mirrored in social posts in which the CTA is to join the list.

[\\*see example\\*](#)

A dark green banner with white text. At the top, it says 'Sign-up and Save 15%'. Below that, in smaller text, it says 'Periodical health and wellness tips, CBD education, exclusive savings, and more!'. In the center, there is a white rectangular input field with the placeholder text 'Email address'. Below the input field is an orange rounded rectangular button with the text 'Get 15% Off' in white.

# TANASI SELF CARE

## Sign-up

- **When:** static embed
- **Where:** /blog/
- **What's next:** Because of the blog template and the previews being squares, this box gets a little lost in the page. A solution could be to have it be the stand alone box on the right of the page, replacing the fee salve offer.

# Blog Page Offer

- **When:** top of page
- **Where:** /blog/
- **What's next:** The look and placement of this offer gives off a "spam-ish" feel. I'd suggest removing the offer and replacing it with the email sign up \*see above\*. I'd like to see this as a pop up on this page (there are none currently) after 5 seconds of scrolling. This will help keep the blog post organized by categories without the break in between.

## Recommendations

Currently there are no popups when scrolling through the posts that autoloading, here are a few recommendations on how to improve that experience:

- Remove claim free salve offer from the right of the page
- Switch blog layout to adhere to the ad [landing page](#) feedback (the content above the video)
- After scrolling through the first article implement a “join our email list” pop up
- After the 3rd article loads (6-8min) have a claim your free salve pop up
- Add a shop now button between articles

# Tanasi Opportunities

## Reels / TikTok Content

- Day in the life of brand ambassador/influencer, how they use the product in their everyday life
- Recipes that you can make at home with the product
- Workout, yoga, meditation videos where the product isn't mentioned (provide value before making the sale)

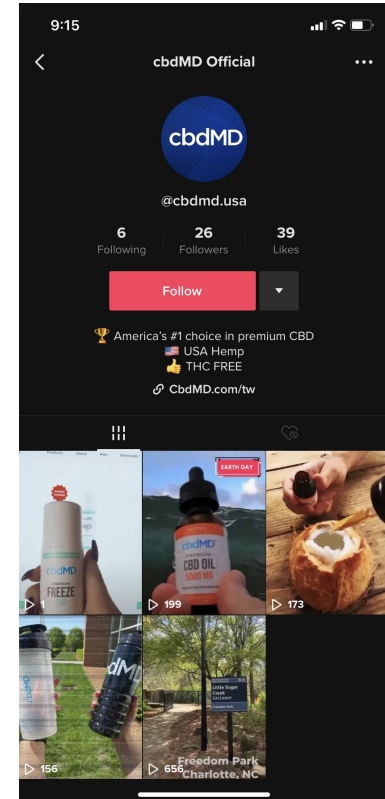

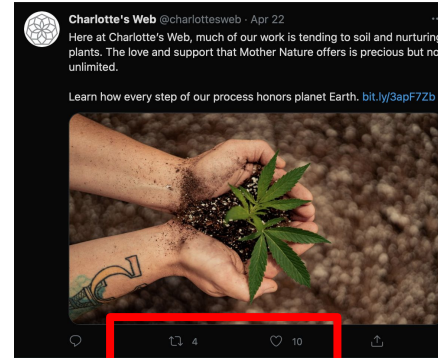

Finally, grab your Tanasi 1200mg  
Drink Concentrate and add 5 drops

# Social Media Takeaways

- Competitor's large audiences often times do not correlate to strong engagement
- No competitors are thriving on Twitter or Facebook
- Great opportunity to leverage influencer marketing on TikTok
- Tanasi needs to continue hitting on educational pieces, but focus on increasing video content that showcases how the product can be used in everyday life
